Careful review and examination of the subject application are noted and appreciated.

DRAWING OBJECTIONS

The objection to the drawings is respectfully traversed and should be withdrawn. FIG. 3 clearly shows the claimed memory 104. Claims 12 and 13 (and claims 11 and 14 for that matter) merely further defined the memory 104. It appears that the Examiner is requesting that the memory 104 be labeled four separate times to match the four separate types of implementations described in the specification on page 21, line 14 through page 22, line 8. However, the drawings clearly show the memory of claim 1, as well as the specific types of memories in claim 11-14. Therefore, the objection to the drawings should be withdrawn.

CLAIM REJECTIONS UNDER 35 U.S.C. §102

The rejection of claims 1-2, 4-6, 11-12, 14-17 and 20 under 35 U.S.C. §102(b) as being anticipated by Pawlowski has been obviated by appropriate amendment and should be withdrawn.

The allowable matter of claim 3 has been incorporated into claim 1. The allowable matter of claim 18 has been incorporated into claim 15. The allowable matter of claim 19 has been incorporated into newly presented claim 21. Matter similar to

the allowable matter of claim 19 has been incorporated into claim 20.

As such, the presently claimed invention is fully patentable over the cited reference and the rejection should be withdrawn.

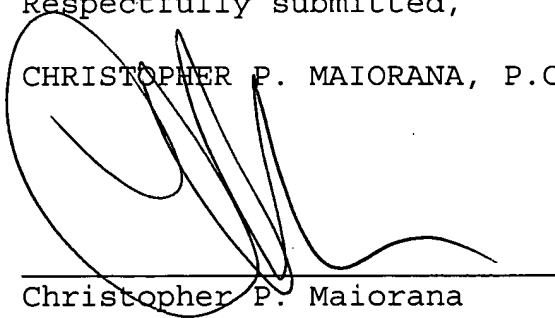

Accordingly, the present application is in condition for allowance. Early and favorable action by the Examiner is respectfully solicited.

The Examiner is respectfully invited to call the Applicant's representative should it be deemed beneficial to further advance prosecution of the application.
